

Ballantine's Innovator Series

The **Innovator** chain is specifically designed for Rock, Frost and Coral applications.

- Non-rotating bits can be relocated for longer wear life.
- Smoother ground entry reduces boom hop for close up work.
- Less horsepower required helping reduce fuel cost.
- Cleaner rounded trench bottom.

Available for the following Brands of Trenchers:

Ditch Witch® 3.067" Pitch Chain

Vermeer® 3" Pitch 2134M & 4" Pitch 7600M Chain

Case®/Astec® 3.110" Pitch Chain

THE CHAIN FOR THE TOUGHEST TERRAIN

Innovator Chain Testimonial:

Mike Martinson from MCM General Contractors "It will far outlast the OEM chain and in my opinion, it is worth every dollar. I would highly recommend the Innovator Chain to any person who asked because the return is worth the investment." "The Innovator Chain trenched through the rock at a pace of roughly 8 feet per minute, through rock. My crew finished the other 13,000 feet and the Innovator Chain still looks and works great."
